RELIGIOUS INTELLIGENCE

The Methodist church at Millbridge has been improved.

In the Baptist church at Buckfield three candidates were baptized on the 3d inst., and there is still an interest.

The pastor of the Second Baptist church at Rockland, gave the right hand of fellowship to five candidates on a recent Sunday.

Eleven persons were received into full membership in the Methodist church, Hallowell, on a recent Sabbath.

Henry B. Smith has been elected agent of the Young Men's Christian Association of Portland.

A revival is in progress in the Baptist church at Limestone Aroostook county and the converts are now numbered by scores.

Rev. C. G. Leavens formerly of Durham, pastor of the Baptist church in Brooklin, Maine, has tendered his resignation of his charge.

The Congregational and Catholic Societies of Brunswick held levees recently, and enriched their funds to the amount of about $125 each.

Rev. J. F. Eveleth intends soon to close his labors with the East Harrington Baptist church, of which he has been pastor nearly three years.

Rev. Mr. Abbott of Andover, Mass., is supplying the pulpit of the Congregational church of Lovell, preaching alternate Sabbaths at the Village and Center.

The Congregational society of Rockland, have extended an invitation to Rev. J. F. Hall, of Quincy, Mass., to become their pastor at a salary of $1800 per year.

Rev. B. H. Bailey, formerly pastor of the First Parish Church in Portland, has received a call from the Unitarian church of Dorchester, Mass.

Rev. B. F. Shaw, of Waterville, has accepted a call to the pastorate of the Baptist church in Skowhegan, and will commence his labors there the first Sunday in December.

At a meeting of the members of Pine street Congregational church in Lewiston, Friday evening, the resignation of the pastor, Rev. Mr. Ford was accepted.

An excellent religious interest is prevalent in the Free Baptist church in Wells, and several accessions have recently been made, under the ministrations of Rev. J. Keene.

The High St. Congregational church, Auburn, yet hope to obtain Rev. Mr. Tinker, for their pastor, and will wait to see what effect his foreign trip may have upon his health.

Quite a religious interest is manifested at the Methodist church in South Berwick, Rev. H. B. Mitchel, pastor. Thirty-nine have joined the church by letter and on probation since last April.

The Auburn High Street Universalist Society under the labors of its pastor, Rev. J. C. Snow, is highly prosperous. Rev. Mr. Snow on the first Sunday in December is to begin a course of lectures for the young.

Rev. J. L. Roberts of Boston, has accepted a call to the pastorate of the church in Brownfield, Me. where he has been supplying for the past two months, and will remove there the first of December.

Rev. H. M. Eaton is to commence a protracted meeting in Newport, the 27th inst. assisted by Rev. Charles Rigby of Newburgh. The two churches in Newport village are to hold a "union praise meeting," Thanksgiving Day.

The Congregational church in Eliot is having a revival of religion. Seven have been received into the church within a month, six of whom were from the Sabbath school and others are to join at the next communion.

The Secretary of the Kennebec County Sunday school Association received in response to circulars sent out, returns from 48 schools, reporting 384 teachers and 4425 scholars; money raised $2,375; number of conversions the past year 160.

The contract for building the Congregational church at Fort Fairfield was awarded to Mr. A. W. Hoyt, for $885. The cedar timber which Mr. Ayer brought down the river and as he thought, made fast to the shore, for the foundation of the church went adrift and was lost.

The Press learns of the death of Rev. P. Roberts, Free Baptist, who has resided in Massachusetts, but was engaged to preach in Brownfield, and has supplied the pulpit for the last two months up to last Sabbath.—Nothing had been heard of his illness, so that his death is a painful surprise.

There is considerable religious interest in the Methodist and Congregationalist churches in Monmouth. The people are more than usually stirred up in their religious attendance upon the means of grace, and everything looks hopeful for an advanced religious movement through the community.

The people of South Auburn have rejuvenated their old house of worship (Baptist) and Wednesday (12th) dedicated it—Rev. G. P. Mathews preaching the sermon. In the afternoon Mr. William E. Millet of Leeds, was ordained to the Gospel Ministry—Rev. E. Haynes preaching the sermon. The attendance was excellent. Recently there has been a deep religious interest in the church.

H. F. Wood, late of Bates College, was set apart to the work of the gospel ministry at West Waterville Nov. 6th, by a council chosen by the Bowdoin quarterly meeting in the following order: Prayer by Rev. T. Hill (Meth.) sermon by Rev. C. F. Penny; prayer at the laying on of hands by Rev. S. Bowden; charge and right hand of fellowship and address to the church by Rev. J. S. Burges.

At a meeting of the Maine Sabbath School State Executive Committee held in Augusta, Nov. 12th, Alden Baker of Gardiner, Joshua Nye of Augusta, and Daniel Cargill of Augusta, were chosen a committee to raise the sum of $1500 to defray the expenses of the Association until the next State convention. U. M. Bailey of Winthrop, and G. H. Palmer of Bath, have each subscribed $100, provided this amount be raised.

The Methodist Episcopal Church at Skowhegan erected in 1860 a spacious and elegant house of worship in that village, upon which a troublesome debt of about seven thousand dollars rested. A partially successful effort to lift this incumbrance was made three years since; but the object was not accomplished until last week. On Sunday the 17th inst., the pastor, Rev. Mr. Jaques, read a communication from the Trustees, announcing the gratifying fact; and stated that in addition to liberal contributions by members of the congregation, a check for two hundred dollars in aid of the work, had been forwarded by Mrs. J. V. Sturtevant, formerly a resident of S., but now of Jamaica Plains, Mass.

People generally feel very timid about the use of gunpowder, but when fire was raging very wildly in the burnt district of Boston, [illegible] required for use in blowing up buildings.

Gov. Coburn has expressed the desire to the County Commissioners that the foundation for the new court house to be erected in Skowhegan should be obtained this winter, and measures taken immediately to carry out the Governor's wish.

On Monday, four workmen in Carter & Co's shipyard in Belfast fell by the breaking of a staging round a vessel, and one, William Pottle, received serious injuries, having three ribs broken and the shoulder-blade badly fractured. The others were slightly injured.

There is a man in Franklin, upwards of forty years of age, who has voted at every presidential election since he became a voter; who never drank a glass of ardent spirits or used tobacco in any form; who never sailed in a vessel or rode in a stage coach or railroad car.

NEW MAGAZINES.

GODEY'S LADY'S BOOK. The December number is filled with choice reading matter and the fashion plates and other *et ceteras* are fully equal to any previous issue. L. A. Godey, Publisher, Phil.

OUR YOUNG FOLKS. The December number contains the conclusion of the serial story, "A chance for Himself," and is in all respects the gem number of the year. James R. Osgood & Co., Publishers, Boston.

THE ATLANTIC MONTHLY. A rich treat is in store for the readers of this magazine, the December number being one of much interest. The opening article, "The Fight of a man and a Railroad," is one which discusses the rights of travellers, and the many inconveniences which they are made to suffer. The writer illustrates by a reference to a case of his own. This number is decidedly the best of the year. James R. Osgood & Co., Publishers, Boston.

THE WESTMINSTER REVIEW. The October number presents the following list of contents: The Heroes of Hebrew History; Pindar; Free Public Libraries; The Descent of Man; The Scotch Education Settlement of 1872; France; Her Position and Prospects; The Æsthetics of Physicism; and Contemporary Literature. The magazine is re-published by the Leonard Scott Publishing Co., N. Y.

The trial-by-jury bill has passed in the Spanish Cortes by a vote of 146 to 178.

MEMORANDA.

The new ship in McGilvery's yard at Belfast will be launched early in December, and probably load hay for a southern port.

Briggs & Cushing have the frame out and stretched the keel for a ship of 2200 tons in their yard at Freeport.

Stetfield Bros., of Brunswick, are to build a ship of 1200 tons, if material and labor do not advance beyond a reasonable figure.

DISASTERS.

Capt Pike, in the steamer New Brunswick at Eastport from Boston, reports having passed two vessels, one bottom up, the other on her beam ends, in the vicinity of Mt Desert, with boxes, barrels, &c, floating near them.—The sea was very rough, and no signs of life apparent, he proceeded on his way.

Ship Bennington, which sailed from Liverpool for Callao but grounded on Blackington Bank, was taken off 7th inst and anchored in safety.

SATURDAY, NOVEMBER 23, 1872.

THE PROPOSED NEW REVENUE LAW.

At the last session of Congress a bill was passed requiring the consolidation of the Internal Revenue districts by the 1st of January 1873, into eighty, with as many collectors and assessors. After the adjournment it was found that the plan, if carried into execution, would not be satisfactory. On the assembling of Congress a resolution will be offered deferring the execution of the act until action can be taken on a bill, drawn by the Commissioner of Internal Revenue, (mention of which has already been made in these columns,) which will be submitted to the Committee of Ways and Means and of Finance, at their first sitting at the approaching session.

The object of the bill is to provide for the reduction of the expenses and simplifying the mode of collecting the revenue by the abolition of assessors and assistant assessors, and the transfer of such of their present duties as are not abolished by the bill to the collectors and assistants. As there are now 230 assessors in commission, whose salaries average $5,000 each a year—making in salaries of assessors alone, $1,150,000—1,300 assistant assessors, who make $5 a day each, or a total of $1,950,000 in a year of 300 working days, it will be seen that the bill would greatly reduce the expenses of collecting the revenue.

By the provisions of the bill the taxes upon spirits and tobacco and the banking taxes are to be assessed and reported to the district collectors by the Commissioner of Internal Revenue. All special taxes, including the tax on worms and stills, are to be paid by stamps, which stamps the Commissioner is to prepare and furnish. All persons liable to special tax, except tobacco pedlers, are to keep in conspicuous view the stamps denoting that such tax has been paid under penalty of $100. Such returns as are now required to be made by taxpayers to the assessors are under this bill to be made semi-annually and in duplicate to collectors, who are to forward one copy to the Internal Revenue Bureau. All the extra commission of one-half per cent, on tobacco and distillation taxes is to go to the collectors. The bill provides for fifty special revenue agents in partial substitution of the assessors to be abolished. Pedlers who refuse to show their certificates from the district collectors are to forfeit their wares.

The estimated yearly saving in the cost of collecting the revenue is fully a million and a half, while large increases in collection are predicted by the authors of the bill. It is said to meet the approval of the President, who has given it much attention, and also of Secretary Boutwell and the leading Supervisors throughout the country, and it is further stated that both the President, in his message, and Mr. Boutwell, in his annual report to Congress, will urge the passage of a similar measure.

Special despatches from Winona, Minn., contradict the sensational reports sent Thursday night, that the tracklayers on the extension of the Winona and St. Paul railroad, blockaded with snow, are in any danger of starvation, or even suffering. One report says that the train sent to their relief, had arrived at the end of the track, which is now clear of snow.

The Kennebec Journal says "on the best authority," that Speaker Blaine has neither written nor conversed on the subject of a re-enactment of the law providing for the assembling of Congress on the 4th of March, and has no desire that the meeting of the 43d Congress should be hastened.

THE PRESIDENT ON WOMEN'S RIGHT TO EQUAL WAGES. The Boston *Advertiser's* special from Washington states that the President expressed himself very fully Thursday upon the question of women receiving from the Government the same pay as men when they perform the same work. He said he should not fail to use his influence whenever he could to bring about the change. It had been a matter of great satisfaction to him that the present civil service rules threw all places open to women as well as to men, through the competitive examinations. He saw no reason why women should not receive the same pay as men in the Departments, for similar work, and he should take occasion to call attention to the matter in such a way as he should think best calculated to secure the end in view.

Some of the advantages of the recent election to the Southern States are illustrated by what is happening in Tennessee. In that State seven of the ten Congressmen returned are Republicans, and the Democratic majority is reduced to about eight thousand, while the majority in the Legislature is so small as to be worth little to the party. The rule of the Bourbons is overthrown, and the people of the State already begin to agitate improvements in education and schemes for promoting immigration to the State. Not only is the future of the South settled by the election, but it is settled for good.

Timothy St. John and Elmer Brown of Brooklyn—the former a merchant and the latter a school boy—are added to the list of persons recently missing from that city and New York, and it is feared they have been murdered. Nearly all the N. Y. papers yesterday had editorials calling for a more stringent execution of the laws against murderers burglars and roughs—some even calling for the formation of a Vigilance Committee to rid the community of the vast numbers of rascals who infest the streets after night-fall, making it dangerous for a peace-abiding citizen to walk out alone after 9 P. M.

STANLEY, the discoverer of Dr. Livingstone, who has just arrived in New York, is described by the *Tribune* correspondent as a short, thick-set man who, though quiet and dignified in his manner, is without a particle of the vanity which many of the English journals have so loudly decried. His complexion has been thoroughly bronzed by the tropical sun, and the sprinkling of gray in his hair attests the severity of the African fevers. A very black moustache and imperial and rather than detract from the robust outlines of his face. Eyes of unusual penetration evince by their sternness the determination of his mind and the strength of will which carried him safely through his perilous undertaking.

POLITICAL AND PERSONAL.

Amadeus is better.

The President is busy on his message.

The Common Council of London has voted resolutions laudatory of the services of Mr. Stanley.

Washington Territory has voted against calling a Convention to form a State Constitution.

Field Marshal Sir William Maynard Gowan has been installed as Constable of lower London.

It is rumored that George W. Smalley is soon to succeed Whitelaw Reid as managing editor of the Tribune.

The Judicial officers of the parish of New Orleans, elected Nov. 4th, have been commissioned by Governor Warmouth.

Francis Childs has received the nomination for Mayor of Charlestown, and Chas. K. Ferson for Mayor of Chelsea, both on citizens' tickets.

A Little Rock dispatch states that the Republicans of Arkansas claim the election of Baxter and their entire State ticket by majorities from 3,000 to 5,000.

Gov. Warmouth has issued a proclamation convening the newly chosen Louisiana Legislature on the 9th of December, for an extra session of ten days.

Owing to the defects in the returns of the election for State officers, the joint session of both Houses of the North Carolina Legislature for comparing the vote, has been adjourned to the first Wednesday in December.

Mark Twain is expected home from Europe this week. He has announced in the English papers that next year he shall lecture there "on the scientific subjects which he knows least about, and may consequently feel less trammeled in dilating upon."

Hon. F. A. Pike was on board the train in the Pullman car at the time of the Seabrook accident, and was not injured, as this car escaped being wrecked. [Machias Union.

We are not so anxious about the cause of that disaster as the wrecking of our political train last September, on which Mr. Pike had a berth. Can any one tell who left the switch wrong on that occasion? Belfast Journal.

INSURANCE AGENTS' COMMISSIONS. At the convention of the National Board of Fire Underwriters, in New York Friday morning, after a lengthy consideration of the matter, representatives of a large number of leading companies resolved that from December 1st 1872, the rate of commission to agents should be reduced to ten per cent. except in cases of insurance of dwelling houses and from property in which companies make their own terms with the agents.

A letter from Arizona states that no confidence is felt there in the promises of peace made by Chief Cochise and other Apaches to Gen. Howard, that Gen. Crook has been punishing the marauding Indians, who lately murdered Lieut. Stewart and several settlers, and that if let alone Crook will soon teach the Indians to do what is right if not interfered with by meddling Indian agents.

AFFAIRS IN FRANCE. The Left centre of the French Assembly have resolved to support the following measures: The appointment of a parliamentary committee of thirty to deliberate upon and report to the Assembly organic laws best fitted to insure the working of the legal government of the Republic; the prolongation of President Thiers' term of office four years; the nomination of a Vice President; the creation of a 2d Chamber; the partial or complete renewal of the Assembly; ministerial responsibility and the general harmonizing of republican institutions. The members of the extreme Left endorse the declaration of Gambetta, that a dissolution of the National Assembly is the sole remedy for the present difficulties.

The Committee of the National Assembly appointed to draw up a reply to his opening message, will demand of President Thiers the appointment of a responsible Ministry; that he shall not participate in debates in the Assembly; and that he shall communicate with that body by message only. These points will be strongly contested by the adherents of M. Thiers when the reply of the committee is presented to the Assembly for action. All reports agree in stating that there will be no opposition by any party to the prolongation of Thiers' term of office four years.

INSPECTION OF STEAM VESSELS. Joseph Nimmo, Supervising Inspector-General of steam vessels, has submitted his annual report to the Secretary of the Treasury. He recommends an extension of the power of Assistant Inspectors so that they be qualified to perform all official acts now devolving upon local Inspectors, and also that power be given by law to the Secretary of the Treasury to convene investigating boards which have plenary power to inquire into all circumstances attending casualties, and to suspend or revoke licenses of steamboat inspectors derelict in duty.

COTTON CLAIMS. Under the act of May 18th, 1872, the time for filing claims for private cotton taken after June 30, 1865, has just expired. The petitions filed involve such large amounts and raise such intricate and various questions of title that it is believed that the Secretary of the Treasury will ask Congress to relieve him from the duty of deciding them and refer all cases filed before him to the Court of Claims.

In Obion county, Tenn., a few days ago, two brothers named Macomber, who are running a mill, had an employe named Saunders with whom they had a wordy altercation, resulting in one of them shooting Saunders in the side. Saunders returned the fire killing one of the brothers instantly, and wounding the other who has since died.

At last the New Erie directors are able to act. This afternoon at the suit of P. M. Watson, President of the Erie Railway, Jay Gould was arrested. The warrant was issued by Judge Fancher of the Supreme Court and was based on an affidavit which charges Gould with wrongfully taking to his own use while in control of the Erie Road nine and a half million dollars of money belonging to the Erie stockholders.

The sureties in the order of arrest are Wm. Butler, D. & Wm. R. Traverse. At 3.40 P. M., Gould entered the sheriffs' office and gave bail.

EXCITEMENT ON WALL STREET.

Evening—Wall Street has been the scene of intense excitement this afternoon, with Northwestern common as the absorbing feature. The stock has risen under the operations of a corner from 95 to 200, the usual transactions being comparatively small. The corner is the closest since that made in Prairie du Chien several years ago. Unless wealthy men were short of the stock it is not probable that the clique would so run up the price as so great an advance would cause the suspension of ordinary dealers unfortunate enough to be on the short side. Rumors speak of

SEVERAL FAILURES,

but their names are unauthenticated. Late in the day the street became aware of the arrest of Jay Gould, who is said to have entire charge of the Northwestern pool, and his arrest caused a panic among the Bears who bid up the price against themselves.

INCREASE OF INSURANCE RATES.

The Board of National Underwriters this afternoon adopted a proposition that the present tariffs be increased by thirty per cent. on property in cities of under 50,000 inhabitants, and fifty per cent. on property in cities of a larger population. The Board resolved to charge an advance of 50 per cent. on all Mansard roofs, except those made of fire-proof material.

MASSACHUSETTS.

A GRAVE CHARGE.

WORCESTER, Nov. 22. The Ophilus Twombly and Peter Roberts, both of East Douglass, were arrested yesterday for hiring a negro named Geo. G. Monso to commit an assault with intent to kill, upon State Constable Fletcher of Whitinsville. They were arraigned this morning and held in $30,000 bail, each, for examination. The negro is also under $3,000 bail. Fletcher is rapidly recovering from his injuries.

MISSOURI.

WOMEN'S SUFFRAGE ASSOCIATION.

ST. LOUIS, Nov. 21. At a business meeting of the American Women's Suffrage Association, various committees were appointed and reports submitted. That of the Executive Committee was read by Julia Ward Howe, which expressed reliance for a final triumph on the Republican party. Col. T. W. Higginson was chosen President for the ensuing year, with Julia Ward Howe, Hon. Henry Wilson, Geo. W. Curtis, Wm. Lloyd Garrison, Mary A. Livermore, Mrs. Langley and Mrs. Cutler as Vice-Presidents; Henry B. Blackwell Secretary, John K. Wildman Treasurer, and Lucy Stone Chairman of the Executive Committee.

A resolution was adopted,

CALLING ON CONGRESS

to establish Woman Suffrage in the District of Columbia, the Territories, the admission of women to positions under the government with equal pay for equal work, the submission of a 16th Constitutional Amendment to the States, abolishing political distinction of sex, calling upon the State Legislatures to give women the suffrage for the election of President and Vice-President, and to change the State Constitutions so as to establish equal rights for all citizens.

The resolution refers to the fact that some women were prosecuted on a charge of voting illegally, and calls upon the courts to decide all doubtful questions of Constitutional law in favor of the equality of women, urges the friends of Woman Suffrage to organize in every State, and endeavor to make it a practical and political issue, and appeals to the Republican party in the hour of victory to consolidate its supremacy by extending suffrage to all citizens irrespective of sex.

STATEMENT OF THE ASSISTANT ENGINEER!

Another Boat Heard From!

A TALE OF SUFFERING!

HAVANA, Nov. 2. The steamship Morro Castle arrived to-day from New York via. Nassau, the 18th inst.

She brings news of the safety of another of the boats of

THE ILL-FATED STEAMSHIP, MISSOURI,

and that John Freaney, 1st Assistant Engineer, David A. North, 3d Assistant Engineer, Charles Sinclair, oiler, Charles Conway, fireman, who survived almost incredible suffering, were at Nassau and will leave for New York on the return trip of the Morro Castle.

STATEMENT OF THE ASSISTANT ENGINEER.

The following statement from Mr. Feaney is published in the Nassau Times:

He says:—The ship stopped frequently during the trip, owing to the foaming of the boilers.

THE FIRE

originated around the boilers. We at once began to play the hose from the donkey engine, but soon found it unavailing and the Captain ordered the boats lowered.

ALL WAS CONFUSION,

and at the attempt to lower the first boat 30 persons jumped into her, but owing to the mismanagement of the davits, one end fell into the sea, the other remaining hanging in the air. All except Freaney and eight others, owing to the rolling of the ship in the heavy sea, let go and were

WASHED INTO THE SEA.

Nine clung to the boat until some person on board the ship cut the davits and the boat, which filled with water, went free of the ship. We saw a boat bottom upwards with two men clinging to the keel, threw them a line and talked awhile with them; wanted them to come and join us, but they considered their position better than ours and refused. One of our men joined the two, and one of the two swam over to us, being one of the saved. We met Mr. Culmer's boat, and asked him to admit us, we being

IN A SINKING CONDITION,

but Culmer refused, saying that he had enough on board. We told him that his boat could hold more. Culmer threw us a bucket and we tried ineffectually to bail our boat. Culmer steered toward Abaco. We had four oars. At night fall we pulled back towards the steamer, hoping the fire would prove a beacon and that some passing vessel might pick us up. We came within a half mile of the Missouri. About 7 o'clock in the evening

THE STEAMER DISAPPEARED

suddenly. We then put our boat before the wind. On the second and third day we were still before the wind, and suffering terribly. On the latter day we saw a vessel come within a mile of us; we shouted and hoisted clothing but were unable to attract attention, and the vessel hoisted sail and steered away. On the 4th day

ONE OF OUR CREW DIED,

and that night, two others having become crazy, jumped overboard. The boat was almost full of water and ourselves were sitting waist deep. On the fifth morning another man died. We were still before the wind; that evening was calm, however, and we succeeded in bailing the boat with two hats, a crazy man having thrown the bucket overboard. From three life-preservers we made a small sail, spread it, and steered south, but

OUR EXHAUSTION WAS SO GREAT

that we do little. On the sixth and seventh days our situation was unchanged. On the eight day we sighted land and succeeded in landing at Powell's Cay, near Abaco, in the evening. We had

EATEN AND DRANK NOTHING

since leaving the ship, and laid down on the beach in a horrible condition. After a time of rest on shore, we gathered strength to reach some deserted houses and found a spring of fresh water. We lay huddled together all night. On the ninth day we found a few tomatoes, which we boiled, having found matches and a pot in one of the houses. This produced

A LITTLE STRENGTH,

and we launched a boat and tried to reach the main land, but failing we returned to Powell's Cay, sleeping there. The next morning we made a final effort to reach the main land, but were so exhausted that we were hardly able to stand, and then lay down near the boat

IN A DYING CONDITION.

Shortly afterwards we saw a small sloop cruising near the island; we hoisted some clothes on the oars, and again lay down on the beach. A son of Wm. Curry was on board the sloop and seeing the signal immediately

CAME TO THE RESCUE

and took and landed us on Green Turtle Key where we remained seven days. Four days afterwards we reached Nassau. The American Consul at Green Turtle Key and Nassau treated us kindly.

THE REPUBLICAN MAJORITY.

MONTGOMERY, Ala., Nov. 22. The Legislature at the Capitol to-day, proceeded to count the vote for State officers. The result will show a majority for the Republican ticket of over 8,000. If it was a mistake and is corrected, the Republican candidate for Auditor will also have 8,000 majority. The other body did no business.

MRS. FAIR'S LAST AFFAIR!

A Frank Waiter reveals an alleged plot to poison the opposing Counsel in her trial for the Murder of Crittenden!

HER SUCCESS AS A LECTURER NOT STARTLING!

SAN FRANCISCO, Nov. 22. A sensation has been caused here by the publication of an alleged plot between Laura D. Fair the murderess of Crittenden, and a restaurant waiter named Frank, to poison Judge Dwinelle and Alexander Campbell, counsel for the people in her late trial.

The waiter, Frank, who reveals the plot, says that it was formed before Mrs. Fair's second trial. He states that the lady (?) tried to induce him to put

POISON IN A DECANTER

in Dwinelle's house, or into the milk can at the door. At the same time this was intended to be done, a woman went to the latter's house and told Mrs. Dwinelle not to leave the milk can out. The matter was concealed from the public, but has been investigated by the Chief of Police Cowley, Judge Dwinelle and all the counsel in the case.

Some thought the waiter insane, but he had a plan of Dwinelle's house in his possession. Mrs. Fair still remains in the city, and people are much incensed at her proposition to give public lectures.

THE NEW YORK TRAGEDY. The New Bedford *Mercury* has the following in relation to King, who perpetrated the outrageous murder in New York on Monday:

"James C. King, who murdered Ambrose O'Neill in New York on Monday, is well known to some of our citizens. His wife, who is seeking a divorce on the ground of cruelty, is a daughter of the late Capt. William Scott of Fairhaven. King married her in Honolulu in 1864, where she was residing with her parents, and against their wishes. A few months after the marriage King shot his father-in-law, who recovered from the wound, though his death in Fairhaven about a year afterwards was probably owing to the pistol ball remaining in his body. King was for a time a clerk in Honolulu, where he in some way got possession of his employer's property. He subsequently swindled merchants of San Francisco and their consignees in England out of large sums. Afterwards he flourished in style at Newport and New York, where he was a crony of Fisk and Gould. His property, as a measure of policy, was placed in his wife's name and [illegible] [illegible] probably one cause of his brutal treatment of her. [illegible] to the [illegible]."

SALE OF STATE PROPERTY. Wednesday, Warden Rice of the State Prison sold at auction the interest of the State in three granite quarries at St. George. The best, containing about sixty acres, was sold to Garret Cokely, who represented New York parties, for $1025. It was really worth three times that sum. The State bought it in 1829 for $100. Another was sold to Patrick McNamara for $85 and a third, known as the Two Brothers, was knocked off to Capt John Bickford for $15. The State owned the granite only.

Prescott's, and Andrews' orchestra will furnish music.

FORGERY. Marshal Bolton received a dispatch Thursday from Deputy Sheriff Wiggin of Lewiston, giving the description of a man named Edward Darrer, living in Oldtown, and requesting him to arrest and hold him until he should arrive. A telegram was immediately sent to the constable at Oldtown, who arrested the man, and he was brought to this city. In the evening the officer from Lewiston arrived and the following circumstances were brought to light. A check for $500, purporting to be signed by Lewis Ware and endorsed by James Ware, payable to the bearer, was sent by express from this city to the First National Bank at Lewiston to be cashed. Darrer being very anxious to know whether the check was paid or not, sent a telegram from this city asking if it was good, and signed the name George James. The forgery was detected and the man together with his brother-in-law M. C. Lovejoy, were arrested as above stated, the latter having been sent to the Express office to get the money, and it being supposed that he was an accomplice. After an examination of the case it was found that Lovejoy had nothing to do with the affair farther than coming for the money, and he was set free. Darrer was taken to Lewiston yesterday morning to answer to the charge of forgery. He is a man about sixty years old, and from specimens of his hand-writing it is evident that he did not make out the check, but was either an accomplice or a tool for some one else.

EMIGRANTS SWINDLED. Nearly three hundred Italians are now at Castle Garden, defrauded of all their money by a band of emigrant swindlers. It appears that they were induced to leave home by stories of advantages awaiting them in Buenos Ayres. SAD ACCIDENT. The Augusta Journal says that a very painful accident took place near East Pittston village on Tuesday. Three brothers, George W., John and Ford Hunt, were engaged in blasting rocks in a field or pasture; a charge of powder had been got ready, and the men retired a proper distance to await the explosion. But there was a long delay, and finally it was supposed the fuse fire had gone out. Confident there was no danger, the brothers went to the spot to examine the fuse and set it on fire again. But at the moment they reached the rock the dilatory fire on the fuse touched the powder, and the explosion took place, greatly endangering the lives of the brothers, and injuring them severely. George was injured the most; his eyesight was destroyed, and his face, and one of his arms and hands were burned in a shocking manner. John's face was badly disfigured. Ford was stunned but escaped with less injury.

We are apt, when looking upon some new discovery in the chemical world, and witnessing its practical workings, to wonder how the world could possibly have so long suffered from the want without having discovered the great *desideratum.* Such must be the feeling when witnessing the benefits secured by the occasional use of SMOLANDER'S BUCHU, which is now the *great* remedy of all family physicians of repute for nervous debility, ulceration of the kidneys and bladder, gravel, diabetes, maladies of the urino-genital organs and all complaints incidental to the female face.

TRANSFORMING THE COMPLEXION.—The transformations produced by HAGAN'S MAGNOLIA BALM are quite as astonishing as any scene on the stage of a theater. That famous beautifier transmutes a sallow, peeky looking complexion, into one in which the lily and the rose vie for admiration, and imparts to a dry harsh skin the softness of perfect loveliness. Tan and freckles, which country air and sunlight are pretty sure to produce, in spite of parasols and sundowns, are completely obliterated by it; while it has a perfectly magical effect in banishing undue redness, blotches and pimples from the skin.—When the lady who has used it to remedy her complexional defects looks in the mirror, she is equally astounded and gratified at the improvements in her appearance. Every blemish has disappeared; her neck, arms and bosom, now rival in whiteness the snowy collar which encircles her throat, her cheek mantles with a peach-like bloom, and she is ready to invoke a blessing on the inventor of the article which has wrought such a delightful transformation.

HOLLOWAY'S OINTMENT AND PILLS.—To use an expressive Western phrase, the Ointment "wipes out" every eruptive and ulcerous disorder, while the Pills purify the internal organs of all impurity. Sold at 78 Maiden Lane, N. Y. Price 25 cents per pot or box. Ask for new style; the old is counterfeited.

AN INTRUDER.

Baby has been here it seems,
Baby Annie on the wing
In my little library,
Pilfering and reveling.

Annie dear, the darling witch—
See how innocent she looks—
Hath she has a world of wiles
When she gets among my books.

Half the time I own she seems
Less a being than a star;
Then again I say, "My books;
Annie, what a rogue you are!"

"No, no—" papa cries in vain;
Down the dainty volumes come;
Papa, here you are no king,
I am seen in baby-dom.

Stately Johnson lies in grief
Under laughing Rabelais:
Emerson is flat for once;
Heine's thumbing Thackeray.

Whittier, O poet rare!
Thou hast many pages less,
But if a I were gone but one,
That would hold and charm or bless.

Baby with the double crown,
And the laughter-haunted eyes,
Papa's sanctum, volumes strewn,
Is to thee a Paradise.

I forgive thee when I feel
Breath and lips upon me pressed,
Sweet as any ... air,
Blown from harbors of the blest.

"Papa," something whispers me,
"Better every leaflet shelf
Emptied by her baby hands
Than the house all to thyself."

AN IMMENSE SNOW-PLOUGH!

The Union Pacific Railroad is having built, at its shops in this city, a snow-plough which when finished, will be the largest and most powerful in the world. It is rapidly approaching completion, and in a few days will be ready for business. The trucks on which it is built are very heavy and strong, and were cast especially for this plough. The platform on the trucks is 22 feet long, and 10 feet 6 inches wide, and is composed of solid timbers 8 by 16 inches. These timbers are held together by 10 iron bolts, 1½ inches in diameter, which run crosswise. This solid bed is fastened to the transom beams by 40 bolts, 20 over each truck. The incline slide, placed on the platform, is 22 feet long and slopes at an angle of 30 degrees, and held firmly to the bed by bolts of an inch in diameter, and is supported from behind by inclined posts, 6 feet long, 8 inches wide and 16 inches thick. The entire length, from the rear of the platform to the end of the slide, is 33 feet. The slide is to be ironed, and an immense plough of the ordinary shape, 18 feet long, 11 feet wide and 5 feet high, and covered with iron 3/8 of an inch thick, is to be securely placed upon it. On the point of this plough there is to be an iron plate, steel pointed, 11 feet long and 4 feet wide. This plate of course runs across the track, and only one inch above it.

The rear of the platform will be boxed in making a room 12 feet high, 11 feet wide and 10 feet long, for the purpose of keeping the snow out. It will be furnished with a door, so that, if necessary, it can be loaded with iron.

The monster will weigh fifty tons, and will be operated by three of the heaviest engines on the road. The cost will be over $5,000.—The design was gotten up by Mr. E. G. Stevens, superintendent of the building department, and Mr. J. H. Congdon, master mechanic of the road, who must have made it a study since last winter. There will be but very few snow drifts that this plough won't clean out, but if it ever jumps the track, it will be a pretty hard job to get it on again.—[Omaha Bee.

Royal Canadian flunkeys are in a melancholy state of mind because a vandal Yankee has purchased and torn down the house at Niagara Falls occupied by the Prince of Wales when in Canada. Some of the most loyal of the Canadians have purchased the sacred material, and will re-erect the house in another place.

The Last of the Loan
OF THE
CHICAGO, DANVILLE & VINCENNES
Railroad Company.
TO CAREFUL INVESTORS.
It is seldom that Mortgages upon new Railroads are considered sufficiently safe for the investment of Trust Funds. It is only when a Railroad is earning, net, an excess of its interest obligations, with a certainty of a steady growth, that its Bonds can be said to be *perfectly safe.*
The CHICAGO, DANVILLE AND VINCENNES RAILROAD is doing this, and has its certainty. That part of it known as the ILLINOIS DIVISION (from Chicago to Danville, 132 Miles,) was finished last year, and its gross earnings have increased from $34,464.07 in December, 1871, to $57,687.95 in August, 1872.
The *net* earnings for August were $30,472.46, or at the rate of $364,949.52 per annum. The total interest liability upon the total issue of Bonds upon both the Illinois and Indiana divisions is $280,000. gold. The Illinois division is, therefore, earning, *net*, more than enough to pay interest upon the entire bonded debt upon the whole road.
THE INDIANA DIVISION,
is about eighty miles in length, traversing extensive Bituminous Coal fields, and making a direct and the shortest possible line between Chicago and the *Block Coal* district at Brazil.
The iron and other materials for the Indiana Division have all been bought and paid for in cash; a part of it is now in operation, and the entire Division is to be finished this season and opened to a profitable business.
The company is not in debt, and owns a large and very valuable real estate in Chicago, beside having an equipment of twenty-five first-class locomotives and about 900 cars.
A first mortgage upon such a road, at the rate of $16,000 per mile is a safe investment, and we know of no other railroad bond, at the price asked, for this, that can demonstrate a similar value as a security for savings banks and others.
We have sold nearly two millions of these bonds to savings banks, trust companies and the most careful investors, and have but $850,000 bonds remaining.
They are for $1,000 each, and have forty years to run. Interest
7 PER CENT. GOLD,
payable April and October. Present price 90 and accrued interest from October 1st in currency.
The last week of our sales of ILLINOIS DIVISION BONDS amounted to $500,000. Early orders are therefore suggested, in order to secure any portion of this extremely desirable loan.

The Arlington
Chilson's New Portable Range.

THIS RANGE has been got up expressly to meet the increasing demand for a BETTER CLASS OF GOODS THAN HAS EVER BEFORE BEEN OFFERED TO THE PUBLIC. All want the best work for the least money, and in this everything will be found that can be desired in a Portable Range.
This Range, as represented in the cut, shows the RICHEST and most BEAUTIFUL DESIGN ever made in Stove Castings. Only the FINEST QUALITY of Stock, and the most THOROUGH WORKMANSHIP are admitted in this class of work.
The following are some of the useful improvements of this Range.
1st. It has six Boiling Holes.
2d. It has Collars to receive the smoke-pipe on either the top or back.
3d. It has a nice arrangement for the admission of cold air for perfectly regulating the draft, and keeping a continuous fire when desired.
4th. Its flues are so arranged that no heat can escape directly to the chimney without doing its work, consequently there is no unnecessary waste of fuel.
5th. The flues are so constructed that every part of the oven is quickly and evenly heated.
6th. It has CHILSON'S patent Water-Front Fixtures, for heating water in bath boilers, etc., when desired. These are the most perfect for the purpose ever invented.
7th. It is vaulted or double plated around the ovens, thus preventing the cold air from coming in contact with the outside oven plates. This is an important improvement, causing the ovens to bake perfectly with a small fire.
8th. It has an admirable Sifting Grate and Ash Pan, so made that no ashes nor dust escape into the room while sifting the ashes.
9th. It has a most convenient plan for cleaning the flues of ashes, etc.
10th. It is made with and without HOT CLOSETS and RESERVOIRS.
11th. It is very compact and makes a splendid appearance in the kitchen, projecting into the room much less than an ordinary cooking stove.
12th. Special care has been taken to protect this Range from cracking.
13th. All kinds of coal, coke or wood may be used as fuel.
14th. All oven doors are tin-lined.
EVERY RANGE WARRANTED.

[GENERAL NATURE—No. 121.]
An act to amend an act relating to soldiers' and sailors' homesteads.
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the act entitled "An act to enable honorably discharged soldiers and sailors, their widows and orphan children, to acquire homesteads on the public lands of the United States," approved April fourth, eighteen hundred and seventy-two, be, and the same is hereby, amended so as to read as follows: That every private soldier and officer who has served in the army of the United States during the recent rebellion for ninety days, or more, and who was honorably discharged, and has remained loyal to the government, including the troops mustered into the service of the United States by virtue of the third section of an act entitled "An act making appropriations for completing the defenses of Washington, and for other purposes," approved February thirteenth, eighteen hundred and sixty-two, and every seaman, marine, and officer who has served in the navy of the United States, or in the marine corps, during the rebellion, for ninety days, and who was honorably discharged, and has remained loyal to the government, shall, on compliance with the provisions of an act entitled "An act to secure homesteads to actual settlers on the public domain," and the acts amendatory thereof, as hereinafter modified, be entitled to enter upon and receive patents for a quantity of public lands (not mineral) not exceeding one hundred and sixty acres, or one quarter-section, to be taken in compact form, according to legal subdivisions, including the alternate reserved sections of public lands along the line of any railroad or other public work, not otherwise reserved or appropriated, and other lands subject to entry under the homestead laws of the United States: Provided, That said homestead settler shall be allowed six months after locating his homestead, and filing his declaratory statement, within which to make his entry and commence his settlement and improvement: And provided also, That the time which the homestead settler shall have served in the army, navy, or marine corps, aforesaid shall be deducted from the time heretofore required to perfect title, or if discharged on account of wounds received, or disability incurred in the line of duty, then the term of enlistment shall be deducted from the time heretofore required to perfect title, without reference to the length of time he may have served: Provided, however, That no patent shall issue to any homestead settler who has not resided upon, improved and cultivated his said homestead for a period of at least one year after he shall commence his improvements as aforesaid.

SEC. 2. That any person entitled, under the provisions of the foregoing section, to enter a homestead who may have heretofore entered, under the homestead laws, a quantity of land less than one hundred and sixty acres, shall be permitted to enter under the provisions of this act so much land as, added to the quantity previously entered, shall not exceed one hundred and sixty acres.

SEC. 3. That in case of the death of any person who would be entitled to a homestead under the provisions of the first section of this act, his widow, if unmarried, or in case of her death or marriage, then his minor orphan children, by a guardian duly appointed and officially accredited at the Department of the Interior, shall be entitled to all the benefits enumerated in this act, subject to all the provisions as to the settlement and improvements therein contained; Provided, That if such person died during his term of enlistment, the whole term of his enlistment shall be deducted from the time heretofore required to perfect the title.

SEC. 4. That where a party at the date of his entry of a tract of land under the homestead laws, or subsequently thereto, was actually enlisted and employed in the army or navy of the United States, his services therein shall, in the administration of said homestead laws, be construed to be equivalent, to all intents and purposes, to a residence for the same length of time upon the tract so entered: Provided, That if his entry has been canceled by reason of his absence from said tract while in the military or naval service of the United States, and such tract has not been disposed of, his entry shall be restored: And provided further, That if such tract has been disposed of, said party may enter another tract subject to entry under said laws; and his right to a patent therefor may be determined by the proofs touching his residence and cultivation of the first tract and his absence therefrom in such service.

SEC. 5. That any soldier, sailor, marine officer, or other person coming within the provisions of this act may, as well by an agent as in person, enter upon said homestead by filing a declaratory statement as in pre-emption cases: Provided, That said claimant in person shall within the time prescribed make his actual entry, commence settlements and improvements on the same, and thereafter fulfill all the requirements of this act.

SEC. 6. That the Commissioner of the General Land Office shall have authority to make all needful rules and regulations to carry into effect the provisions of this act.
Approved June 8, 1872.
